

PhD Day @ DIATI  
11 Oct 2018

Civil & Environmental  
Engineering

#asphalt binder

#driver behaviour

#demolition  
waste in  
roads

#food trade

#mineral  
exploration

#vibrations in  
industrial structures

#magnetotelluric  
method

#cementitious  
materials

#rail-road combined  
transport

#osmosis in  
bentonites

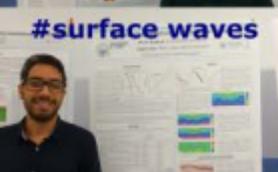

#geothermal  
resources in  
urban areas

#anaerobic  
digestion of  
WWTP

#biorefinery

#surface waves

#protein vibrations

#waves & currents

#air pollution

#stone muds

#natural gas

#asbestos

#windblown sand

#co-modality  
in cities

#high-rise  
buildings

#riverine  
resources

#transportation  
infrastructures

#seismic ground  
response

#morphological  
instabilities

#energy tunnels

#hydraulic  
engineering

#fatigue failure

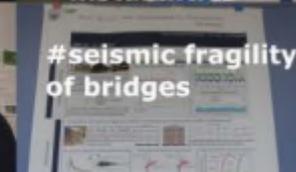

#oxidation for  
water treatment

#waterproofing  
of underground  
structures

#pavements in  
tunnels

#seismic fragility  
of bridges

#shield tunnelling

#dams

#resilience of big  
infrastructures

#resilience of  
infrastructures

#concrete  
structures

#strategic  
infrastructures

Thank you to all PhD  
students who took  
part to the poster  
session!
