

REMIND PROJECT SEMINARS

Renewable Energies for water Treatment and Reuse in Mining Industries

Wednesday, October 18th at 10.00 am

Politecnico di Torino | Meeting Room 1st floor | DIATI Entrance 3

REMIND is a RISE (Research and Innovation Staff Exchange) project of Horizon 2020, i.e. a Marie Skłodowska-Curie Action. This project aims to develop a new paradigm in mining management to address a zero water-energy balance.

Time	Action	Speaker
10:00-11:30	Water management and environmental sustainability in mining district	Proff. Barbara Ruffino, Giuseppe Campo, Deborah Panepinto
11:30-12.00	Environmental sensing in ecosystems with activities of gold mining powered by sediment microbial fuel cells	Prof. Celso Recalde Università di RioBamba
12:00-12.30	Discussion	

Politecnico di Torino

Department of Environment,
Land and Infrastructure
Engineering
