

# Final Meeting PRIN 2022 Project

## MORPHEUS - GeoMORPHometry through Scales for a resilient landscape

Feb 24, 2026 - 14:00-18:00 @DIATI-PoliTO

**14:00-14:15 – CNR IRPI: Project overview**

**14:15-14:45 – UniPD: Geomorphic variations and sediment dynamics:  
catchments and events**

**14:45-15:15 – CNR IRPI & PoliTO: Terraced Landscapes of Liguria  
(Italy): Effects on Sediment Transport and Shallow Landslide  
Distribution**

**15:15-15:45 – PoliTO: High resolution DTM generation from UAS,  
multi-temporal variation detection and DoD**

**15:45-16:15 – CNR IRPI: Sediment dynamics at the regional scale,  
processes, tools and novel approaches**

**16:15-16:30 – Pause/Coffee break**

**16:30-17:00 – Hands-on: available software and tools part 1**

**17:00-17:30 – Hands-on: available software and tools part 2**

**17:30-18:00 – Concluding remarks, open questions, interactions with  
students, stakeholders and participants**
