

REMIND PROJECT SEMINARS

Renewable Energies for water Treatment and Reuse in Mining Industries

Tuesday, September 26th at 10.00 am

Politecnico di Torino | Meeting Room 1st floor | DIATI Entrance 3

REMIND is a RISE (Research and Innovation Staff Exchange) project of Horizon 2020, i.e. a Marie Skłodowska-Curie Action. This project aims to develop a new paradigm in mining management to address a zero water-energy balance.

Time	Action	Speaker
10:00-12:00	Water desalination by membranes, LCA	Prof. Alberto Tiraferri, Isabella Bianco
10:00-12:00	Energy challenges for future water desalination plant projects in Northern Chile	Prof. Mauro Henriquez Università Antofagasta
12:30-13.00	Discussion	

Politecnico di Torino

Department of Environment,
Land and Infrastructure
Engineering
