

Spatial data interoperability for a geographic intelligence

Meeting with prof. Robert Laurini,
Professor Emeritus INSA Lyon.

14.30 - 14.45

Welcome

Monday
24/10/2016

Politecnico di Torino
c.so Duca degli Abruzzi, 24 Torino
Sala Riunioni DIATI door 3 - I floor

14.45 - 16.45

Lecture of prof. Laurini

"The geometric and semantic interoperability of the territorial databases"

17.00- 18.00

Open Discussion

Workshop on interoperability and semantic technologies for spatial data management

Tuesday
25/10/2016

9.30 - 9.40

Welcome and introduction (prof .M. Piras)

9.40 - 10.00

Spatial ontologies for Architectural Heritage (arch. F. Noardo)

10.00 - 10.20

Ontologies for urban planning: the OnTO map project (prof. A. Voghera)

10.20 - 10.40

Interoperable data models for geographical information management in emergency (dr. A. Ajmar)

BREAK

11.00 - 12.00

The geographic knowledge modelling (prof. R. Laurini)

******Open Discussion******
